A new enemy rises from the grave ...

... seeking for a cure, an immortal's strength is failing.

The draeyks have been defeated thanks to the new alliance between humans and the immortal keshlars. But now, the draeyks have allied themselves with the blue-skinned daerions, and the undead human-sized scorpions, the nacropi.

The last battle was won, but the war has just started.

An undead kheshlar is seeking revenge, and she's raising as many allies as she can. Her desire? To destroy the kheshlars who she's condemned because of their betrayal of her. She will stop at nothing and let no one get in her way.

Searon must do everything in his power to hold the alliance between humans and kheshlars intact. The fate of Calthoria depends on it. But this time, he has less allies than before. With Starlyn missing, and his closest companion kidnapped, Searon struggles to lead his men to victory. If he fails, all life is in danger of becoming part of the undead. Will Searon's strength be enough?

More than the draeyks and daerions threaten Calthoria now. Even though they've defeated the warlock, Searon still has to oppose the undead kheshlar, who is relentless to cast her vengeance upon the kheshlars, and she has found a new alliance in a group of women who are adamant to abolish the male-led government.

Searon's brother is now king. His life is now wrapped up in politics, which means he cannot confess his love to an immortal, especially one who is dying. The resistance has won a few battles against the empire. The wyvernriders have proven effective, as have the dragomen, and now with the newly discovered drakes they have a fighting chance. But it still won't be enough.

They need to pull off a heist in the center of the Dragonia Empire.

Devarius and the resistance need the dragon stone. It is rumored to give magical abilities to whomever touches it without addiction. No more siphoning oil from the wyverns for temporary magical abilities for the dragonmen, temporary abilities from a substance that has proven addictive. No more relying on mediocre spellcasters drawing their power from wyvern scales around their necks.

They need the dragon stone.

Are the rumors true?

Can it give whomever touches it limitless power?

Will stealing the dragon stone prove a turning point in the war?

Will they be able to steal it unnoticed?

The fate of Kaeldroga depends on it.

Space Gh0st Adventures Series:

<https://www.craigaprice.com/ghost1.html>

Roads?! Where we're going, we don't need roads!

When a strange radio signal is detected in deep space, the president needs his finest officers to check it out. Unfortunately, the closest vessel is a lowly asteroid miner staffed with a ragtag crew of misfits.

The leader of this crew is Captain Daniel, an "Unwanted." In the future, the rigors of space travel are reserved for two sets of people. Clones of the best and brightest officers, and the products of unplanned pregnancies. As one of the latter, Daniel is considered inferior to his peers and sees this exploratory mission as a chance to prove himself to the galaxy.

Full of tongue-in-cheek humor, "Ghost Probe" will have you chuckling and smiling as the crew of the ship attempts to answer one of humanity's biggest existential questions.

With comic dialogue and situations, "Ghost Probe" will appeal to fans of "The Orville" and other sci-fi that doesn't take itself too seriously.

<https://www.craigaprice.com/ghost2.html>

A radio transmission deep in space ...

... a surveillance mission is ordered ...

Daniel finally has his chance to prove himself with his first official planetary exploration mission.

It isn't going to be Daniel's first time to a new planet, but it will be his first time leading an expedition from the

beginning. In the past, he led missions to asteroids, and one planetary exploration since there were no nearby captains. But this time, he is chosen to go on his first official planet exploratory mission. He is ready to prove himself a capable ship captain.

What could possibly go wrong with a simple surveillance mission?

Daniel is an Unwanted, surrounded by a galaxy of clones. He desires nothing more than to prove himself, but no one takes him seriously. He uses humor as a defense mechanism and stumbles his entire way through being a captain. But this is his first serious mission. He needs to make sure it succeeds at all cost.

If you love Star Trek and The Orville, Science Fiction with snarky characters and humor-filled plot lines with a little bit of hard science, then you'll love Ghost Surveillance, because everyone is an explorer at heart!

A spaceship crashes onto a planet ...

... completely filled with dragons.

When crash landing onto a planet filled with flying, fire-breathing beasts, Daniel is uncertain he can step up as the captain his crew needs to escape the strange planet.

Daniel is an Unwanted. His parents didn't want him. The Space Academy didn't want him. The shipyard he worked at for years barely wanted him. But here he was, clawing through the ranks of them all to become the captain of his very own ship. The Ghost. After one successful accidental mission, and a second mediocre one, he is now the captain of an exploratory crew. To go where no one has gone before, and all that jazz. It's always been his dream.

But when he crash lands on a planet full of dragons. No, not dinosaurs. Dragons. Yes, you heard that right. Dragons. Fire-breathing, Ice-Breathing, and lots of other elemental-breathing, flying dragons. Daniel doesn't know what to do. They may not be intelligent life, but he's stranded with a small crew and they must fight their way out, fix their ship, and get as far away from what Daniel is calling "Dragon Planet" (Original--I know), and onto his next exploratory mission ... if he can survive.

If you love Star Trek and The Orville, Science Fiction with snarky characters and humor-filled plot lines with a little bit of hard science, then you'll love Ghost Dragon, because everyone is an explorer at heart!
